These devices are for more than playing games and listening the music and the students explained to the Board how they are used for educational purposes.

Principal Christine Taylor highlighted the grants are used as a learning tool to engage students in the classroom. Staff looks at state standards and critical skills along and use of instructional strategies. They also need to be accountable for the use of the funds. The hope is to someday be able to furnish each classroom with the electronic devices.

Tom Scott attended the Superintendent's Luncheon and the Lee School Carnival. The Ambassadors for the Turf Project were disappointed on the Board decision to not help to secure financial backing for the project, however they are not deterred.
