Instructor Application

Canby Community Education offers education and recreation activities and classes throughout the year. We are looking for quality instructors who wish to be a part of our team and desire to share skills and talents with the community. We require that our instructors have a background in the subject they want to teach. We do not require a teaching certificate or degree, but do seek people who want to help us develop a relationship with community members of all ages and provide opportunities for them to pursue life-long learning and recreational experiences.
